# plain talk

for bankers, brokers  
and businessmen  
influential in their  
communities

from the  
treasury  
department

*On April 15th, the Savings Bonds Division of the Treasury launched a new campaign —THE SECURITY DRIVE.*

This campaign differs sharply from War Loan drives. It will NOT increase the national debt. Rather, the funds will be used to *retire* bonds now held in the banking system—thus helping to cut down the money supply.

#### WHAT'S BEHIND THIS DRIVE?

Every dollar the public invests in Savings Bonds is a dollar less of "loose money". As such, it will help materially to curb inflationary tendencies.

#### SAVINGS BONDS FOR SECURITY

The slogan for this campaign is "AMERICA'S SECURITY IS YOUR SECURITY". As a businessman, you will appreciate how important it is to the average man to insure his security by regular savings. You know it makes him a better credit risk, a better customer.

You will also understand that community security, and national security, are nothing more than the sum total of *individual* financial stability.

#### YOUR PART IN THE SECURITY DRIVE

This new drive will be backed by almost every known advertising and publicity media. But the best selling technique is "word of mouth"—particularly when it comes from men like yourself, who hold positions of leadership in their communities.

Your government urgently needs your support in making the reasons for this drive *understandable* to the public.

You will render yourself a service as a businessman. You will render your friends, employees and neighbors a service by urging that they provide for their future security. And you will render your country a service of paramount importance at the vital *community level* where your influence is most effective.

**AMERICA'S SECURITY IS YOUR SECURITY**

*This is a public service contribution of*

**THE COMMERCIAL AND FINANCIAL CHRONICLE**

*in cooperation with the Treasury Department  
and The American Bankers Association*
